

SOLUTION BRIEF

# AWS WELL-ARCHITECTED FRAMEWORK REVIEW (WAFR)

*Limited Time Special Offer from Cloudelligent, an AWS Advanced Consulting Partner and AWS Well-Architected Partner: Get your cloud environment reviewed for FREE!*

## Overview

Cloudelligent, being an Advanced AWS Consulting Partner, can review your cloud workloads and help you gain insights into building a high-performing, robust, and secure cloud environment based on best practices.

- Public Sector
- Amazon RDS Delivery
- Well-Architected Partner Program

Cloudelligent with its certified Solution Architects and Engineers has been delivering vetted cloud solutions for 9+ years. We use the most apt tools in the market to analyze your cloud environment, evaluate workloads, and identify High-Risk Issues (HRIs). All in all, our WAFR is an in-depth and holistic assessment of your cloud workloads against the 6 pillars of AWS Well-Architected Framework. Based on this, we help you remediate identified HRIs to get you that added advantage of being **WELL ARCHITECTED!**

## AWS Well-Architected Framework Pillars

AWS Solutions Architects have identified best practices for architecting systems in the cloud - the AWS Well-Architected Framework, based on six pillars:

- **Security** - protecting information and systems
- **Cost Optimization** - avoiding unnecessary costs
- **Reliability** - preventing and quickly recovering from failures.
- **Performance Efficiency** - using IT and computing resources efficiently
- **Operational Excellence** - running and monitoring systems to deliver business value and continually improve processes and procedures
- **Sustainability** - minimizing the environmental impacts of running cloud workloads

## How it works

- Step 1** Begin with deploying a CMP tool within your AWS cloud environment.
- Step 2** Q/A session with our Solution Architects to assess your cloud environment against AWS Well Architected Framework.
- Step 3** Review HRIs report (if any) and Remediation plan.
- Step 4** Cloudeelligent will help resolve the High Risk Issues (SOW required).

## Benefits

Optimize Workloads	Cost savings	Cloudeelligent Expertise	AWS Credits
 <p>Optimize your workloads to run more efficiently by eliminating risks and implementing best practices.</p>	 <p>Identify areas that can help reduce costs and yield better TCO.</p>	 <p>Our consultants have deep expertise and can help offset knowledge gaps.</p>	 <p>Eligible on closure of HRIs by Cloudeelligent.</p>

*Cloudeelligent. We Design, We Build, We Enable.*
